

CONSULATE GENERAL OF BRAZIL  
MIAMI, FLORIDA

THE CONSUL GENERAL

Miami, April 4<sup>th</sup>, 2015

Brazilian coffee is recognized worldwide for its quality and variety. As it is well known, Brazil ranks as the largest coffee producer in the world, exporting, in 2014, US\$1.34 billion of coffee beans to the United States. Historically, Brazilian coffee producers left their mark in the crafting of unique blends made from high-quality coffee beans.

2. In the midst of this tradition, Villa Café was established based on the commitment to sustainability and excellence. The Brazilian company specializes in producing and processing specialty coffee, from planting to storage and distribution. Villa Café has become a recognized brand due to its blend produced from 100% Arabica beans, carefully selected and manufactured through cutting edge technology.

3. The Consulate General of Brazil in Miami is pleased to serve Villa Café's premium coffee to guests who may have an opportunity to taste some of Brazil's tradition. Thus, the Consulate General would like to recommend Vila Café's premium coffee, acknowledging its position amongst the best coffees in the world.

Sincerely,

  
(HÉLIO VITOR RAMOS F.)

Ambassador
